

## Final Report

### **Title: Status of alternative art spaces in 9 Southeast Asian countries**

---

For this fellowship, I spent 3 months researching alternative art spaces in 9 Southeast Asian countries. I traveled to the Philippines, Indonesia, Thailand, Laos, Myanmar, Singapore, Malaysia, Vietnam, and Cambodia, where I visited 82 spaces and surveyed their activities, while simultaneously introducing the Japanese alternative art scene, including the Art Center Ongoing which I operate in Tokyo. In the Philippines, Indonesia, Thailand, Malaysia, and Vietnam, I not only conducted research, but invited local people involved in art to hold talk shows and symposiums. In Chiang Mai, Thailand I also held a joint exhibit with Japanese artists and local artists. I introduced the spaces that I researched on my blog, and touched on the activities of all the spaces there. In understanding the current state of alternative art spaces in these 9 Southeast Asian countries, I am proud that the content of this blog has the newest and most detailed content of existing databases, and I will use that content here to make my final report.

\*Please see the blog below for details about activities. (Japanese only)

<http://ongoingogawa.jugem.jp/>

The following is a list of alternative spaces which I visited.

## Republic of the Philippines

### Manila

01.
